College of the Immaculate Conception New Orleans.

Sixty-First Year

THE COLLEGE of the Immaculate Conception, conducted by the Fathers of the Society of Jesus, was founded in December, 1847; and in March, 1856, was endowed by the Legislature of the State of Louisiana, with the full powers and privileges of a University.

The plan of studies embraces the Doctrines and Evidences of the Catholic Religion, Logic, Metaphysics, Ethics, Astronomy, Natural Philosophy, Chemistry, Mathematics, Rhetoric, Composition, Elocution, History, Geography, Arithmetic, Penmanship, Book-keeping, Stenography, Typewriting, the Latin, Greek, English, French, German and Spanish Languages. The arrangement of these studies is as follows :

I.

Post-Graduate Course

The Post-Graduate Course of Lectures was introduced in the month of November, 1886, and it has since been continued with good results.

Sociology, Natural and International Law, Political Economy and General Physics are the subject-matter of the Lectures.

The Annual Course opens on the first Monday of October and closes at the end of April. The general subject-matter will be distributed over several years, so as to vary the treatises of those who may desire to attend for more than one term.

At the termination of the complete Course, such members of the class as have given satisfaction by regular attendance may apply for the Degree of Bachelor of Philosophy, which will be granted on condition that they pass an examination on Theses to be selected from the matter developed during the Course, and present an original and creditable paper on a given subject.

Graduates of the College, or of any College of the same grade, students of Law or Medicine, and gentlemen of literary or scientific culture, will be admitted to the above Course.

The Degree of **A. M.** will be conferred upon those who have previously received the degree of **A. B.**, after one term of Post Graduate Lectures faithfully and studiously attended.

The same degree will also be conferred upon those who, after devoting two years to the study of some profession, write a satisfactory paper on a given subject.

II.

Classical Course

The Classical Course, which leads to the Degree of Bachelor of Arts, is designed to impart a thorough, liberal education. In the accomplishment of this purpose, the Ancient Classics hold the first place, because some acquaintance with them is essential to the study of modern literature and to sound scholarship. Besides Latin, Greek and English, it embraces Religious Instruction, Mental and Moral Philosophy, Astronomy and Mathematics, History, Literature, Book-keeping and the Natural Sciences. It has been found by long experience, that this is the only Course that affords unsurpassed mental discipline, forms a correct taste, and prepares the student to excel in any pursuit, whether professional or commercial.

III.

Commercial Course

This Course offers the means of acquiring a good English or Commercial education. It embraces Book-keeping, a thorough study of Arithmetic, Algebra, Geometry, Trigonometry,

English—Grammar, Style, Rhetoric and English Literature—Physics, Chemistry, Mental Philosophy and Religious Instruction. The degree of Bachelor of Science will be conferred on those who pass successfully the different examinations.

IV.

Preparatory Department

This Department comprises First, Second and Third Preparatory. Its object is to give the younger pupils a thorough knowledge of Fractions, Compound Quantities, Percentage, Interest and Discount; to lead them from the first principles of Grammar through Etymology and Syntax, to speaking and writing the English Language correctly; to form them to habits of attention and application and thus prepare them for one of the regular Courses of Instruction.

Boys who are in the Fourth Grade are admissible to this Department.

Religious Training

The College authorities are convinced that, without Religion, there can be no education, in the true sense of the word, that is to say, no complete and harmonious development of the intellect and heart of man. They hold, furthermore, that religious truth, being definite and certain, like any and every other truth, is as susceptible of teaching as the science of language, or the theory of numbers. Hence, the Catechism of Christian Doctrine is a text-book in every class, and lectures on it are given twice a week. In all the classes the day's work begins and ends with prayer. The Catholic Religion alone is taught, but non-Catholics will also be welcome and their religious opinions studiously respected.

Catholic students go to confession on the Saturday previous to the third Sunday of each month, and on the following day, in the Church annexed to the College, hear Mass and receive Holy Communion.

General Regulations.

Admission

VERY Student who applies for admission must furnish testimonials of good moral character, unless he be personally known to some member of the faculty; and should he come from another institution, he will be required to bring satisfactory evidence of blameless conduct. He is then examined by the Prefect of Studies, and assigned to that class for which his previous attainments have qualified him.

The session is divided into two terms. The first term begins on the first Tuesday in September, the second term on the first of February and closes towards the end of June.

Leaving the College

Parents who wish to withdraw their sons before the end of the session, are respectfully requested **to give due notice of their intention to the Vice - President.** Many inconveniences will thus be avoided, and order secured. Should any student leave of his own accord, or be withdrawn without such notice, or without giving satisfactory reasons, he will not be re-admitted. On leaving, students should take their books, etc., with them, as the College is not responsible for any articles left behind.

Examinations

Two examinations are held each year, one at the end of each term.

Promotions

Though promotions may take place any time during the year, whenever warranted by the progress of the student, the usual time is the beginning of the school year. These promotions depend partly on the final examinations, and partly on the general class-standing during the preceding year. A student of ordinary talent, and steady application during the entire session, may be easily promoted, provided he returns promptly when classes are resumed. Should he not be promoted, it is usually a sign that he did not attend regularly during the entire session, or that he did not devote sufficient time daily to home study. Should a student fail in the final examination, he will be offered the privilege of passing a private examination during the vacation, if his yearly average warrants the concession. Should a student, however, fail in the semi-annual examination and also in the final examination, he forfeits any such privilege.

Competitions

Competitive exercises are given monthly in the various branches, the results being read publicly in the presence of the faculty and students, and the leaders rewarded for their proficiency.

To lend interest to these announcements, as well as to accustom the students to appear in public, the proceedings are varied with class matter, declamations, original speeches, vocal and instrumental music.

Testimonials of good conduct and diligence are given regularly to deserving students. Parents should require these evidences of good behavior, and if not forthcoming, take an early opportunity of visiting the Vice-President, to inquire why their sons fail to receive merit cards.

Modern Languages

The study of French, Spanish and German is optional and entails no extra charge.

Stenography and Typewriting

The study of these branches is optional.

Fees and Expenses

As the College is not endowed, it is entirely dependent for its support on the fees paid for tuition.

Tuition per month, payable in advance	\$6 00
Use of Chemicals, etc., <i>per annum</i>	10 00
Classical Diploma	10 00
Commercial Diploma.....	10 00
Stenography and Typewriting, each, per month	2 00

N. B.—No deduction is made for any absence less than half a month.

Books and stationery are furnished by the College at current prices.

Special Regulations

THE ATTENTION of students is specially directed to the important duty of **home study**. Since recitations in the various branches fill up almost all the school hours, it is very difficult to advance, and utterly impossible to accomplish the work laid out for each year, unless the student devotes at least **three hours daily** to class study at home. Parents are

Home Study

exhorted to insist on this indispensable duty, and to inform the faculty, should their sons neglect it.

After home study, the next duty which should claim the attention of students and the vigilance of parents is **punctuality**.

Severe illness or absence from the city is, generally speaking, the only excuse admissible for staying away. Whenever parents keep their sons at home, on account of sickness or for any other good reason, they are requested to send a postal card to the **Prefect of Discipline**. Frequent absence so rapidly lowers a student's class-standing, that the faculty prefer he should be withdrawn entirely.

Owing, moreover, to the serious inconvenience resulting to professors and students from breaking in on class-hours

by withdrawal before the end of the afternoon **Attendance the whole day** class, permission to leave College will not be given, unless for reasons deemed imperative by the Vice-President.

If parents do not insist on home study and punctual attendance, they need not be astonished if their sons remain a second year in the same class, or, perhaps, be refused re-admission.

Along with moral and mental training, the faculty lay great stress on the development of the manners of perfect gentlemen, and consider the rules of politeness a very important part of the course of studies. Whatever, therefore, is contrary to good breeding, is out of place in College. Consequently no boisterous conduct or rough play is tolerated

Politeness on the premises, and silence is strictly enjoined in the class-rooms, and on the corridors or stairways leading thereto. Any ungentlemanly conduct among the students themselves, any disrespect or insubordination to a professor or officer of the College, will be visited with severe punishment, and even with dismissal should the gravity of the offense require such a penalty.

For faults of ordinary occurrence, such as tardy arrival, failure in exercises or recitations, slight violations of rules, detention after class, or the task of writing or memorizing some lines from an author, is deemed a sufficient penalty.

For faults committed outside of the premises, the officers of the College are by no means responsible, as students cease, then, to be under their jurisdiction; still **Penalties** should any serious charge be fairly substantiated, the guilty will be punished according to the gravity of the offense.

Damages to the College property will be repaired at the expense of the offender.

The use of profane language or anything bordering on immorality, will subject the offender to immediate expulsion.

Once a month the marks of all the students are read out **Monthly** in the classes. These marks are the record of **Marks** daily lessons, exercises, conduct and monthly competitions. 100 is the maximum. A student receiving over 89, merits a testimonial of the first grade, one receiving from 80 to 89, merits one of the second grade.

A **report** of these marks is sent to the home of every student to be signed by his parents or guardian. As these reports **Monthly** indicate exactly the student's class-standing, the **Reports** College requests that they be very carefully examined, and afterwards returned to the Professor. **No student is allowed to open his report. Should these reports be not forthcoming, parents or guardians should consult the Vice-President as soon as possible.**

The College is open at 8 A. M. All are obliged to be present at 8:45 A. M., at which hour they go to church for **Tardiness** morning prayer. Class begins precisely at 9 o'clock.

A student arriving after the 8:45 o'clock bell has rung, must report at once to the Prefect of Discipline and cannot enter class without a note from him.

Written excuses for lessons or exercises fall under the same rule as notes for absence; a student not prepared to recite is considered as morally absent, and is marked accordingly. Such excuses are to be handed to the Prefect of Studies, who will decide whether, in some special instance, they are to be admitted.

No student, unless for serious reasons, will be allowed to take his lunch outside the College limits. Parents are requested not to ask this permission if it can possibly be avoided.

Thursday is the weekly holiday, but should an extraordinary holiday fall on a regular class day, classes may be continued on Thursday.

All are expected to be clean and neat in person and dress apparel.

Natural Sciences

Physics

1. Transmission of pressure in liquids. Pascal's law. Hydrostatic press. Downward, upward and lateral pressure. Equilibrium of liquids. Archimedes' principle;—its application in determining the specific gravity of solids and liquids.
2. Properties of gases. The atmosphere and its pressure. Barometers. Mariotte's Law. Air-pumps. Lifting and force pumps. Siphon.
3. Wave motion. Wave period. Wave length. Amplitude. Production and propagation of sound. Sound Waves. Velocity of Sound. Intensity, pitch and timbre of musical sounds. Sympathetic vibrations. Resonance. Reinforcement and interference of sound waves. Beats.
4. Ordinary thermometers. Expansion of bodies by heat. Rate of gaseous expansion. Relation of temperature and volume of gases. Liquefaction and Vaporization. Latent and specific heats.
5. Production of statical electricity. Electroscope. Electrostatic induction. Electrophorus. Plate and Toepler-Holtz machines. Condensation of electricity. Leyden jar.
6. Current electricity. Primary batteries. Daniell's, gravity, and Leclanché cells. Electrical Units. Ohm's law. Galvanometers. Permanent and electromagnets. Morse's Telegraph.
7. Electromagnetic induction. Ruhmkorff's coil. Dynamo, Telephone.

General Chemistry

1. Chemical symbols and formulæ. Nomenclature. Molecular and atomic weights. Chemical equations. Quantivalence. Laws of definite and multiple proportions. Gravimetric and volumetric computations. Percentage composition.
2. Describe the elements H, O, N, Cl, S. Explain the manufacture of HCl, HNO_3 , NH_3 , H_2SO_4 ; and give the chief properties and uses of these compounds. Acids, bases, salts.
3. Occurrence, preparation, properties and uses of the various forms of Carbon. Illuminating gas.
4. Occurrence, preparation, properties and uses of the elements P, Na, K, Ag; and of their chief compounds.
5. Cast iron, wrought iron, steel. Preparation of these substances from the ores of iron.

Mechanics

1. Motion and rest. Kinds of motion. Laws of uniform and uniformly accelerated motion. Composition and resolution of velocities.
2. Force. Kinds of force, and their effects upon a free body. Newton's laws of motion. Measurement of force. Problems in Dynamics.
3. Work and Energy. Their measurement. Kinds of energy. Transformation and conservation of energy.
4. Composition and resolution of angular forces acting in one plane. Parallel forces. Equilibrium of forces. Conditions of equilibrium. Moments. Theorem of moments.
5. Simple Machines. General laws of machines. Levers. Pulleys. Inclined plane.

Descriptive Astronomy

1. The Celestial Sphere. Its relation to the earth. Its apparent motion. Various systems of coordinates for determining the position of points on the celestial sphere.
2. Apparent annual motion of the sun. The Ecliptic. Time : Sidereal, true and mean solar time.
3. Astronomical instruments. Telescopes. The Meridian Circle ; its uses.
4. The moon. Its motions and phases. Eclipses of the sun and of the moon. Their causes.
5. Apparent motions of the planets. Their real motions. Kepler's laws. Universal gravitation.
6. The Solar System. The sun's dimensions and constitution.

ARGUMENT.

The Play is founded on the novel of Bertha Runkle "The Helmet of Navarre." All the charaters are the same as those in the novel, though the plot is different.

The boy, Felix Broux, coming to Paris from Picardie with a package which his dying father has commissioned him to hand to the Duke St. Quentin, or to de Mar, seeks admission to the palace of the Duke. He is prevented from entering by the lackeys and servants of the household.

Paul de Lorraine, nephew of the Duke of Mayenne, disguised and under the assumed name of Lucas, acting as secretary to the Duke of St. Quentin, suspects the contents of the document brought by the boy, and has it taken from him by force.

The adventures encountered by the boy in his brave attempts to recover the document, and the final result of his endeavors, make up the chief action of the play.

JESUITS' COLLEGE SCHOLARSHIP

NEW ORLEANS, LA.

CONDITIONS

... FOR ...

FOUNDERSHIP.

A course scholarship represents the amount necessary for a five or seven years' course, entitling the holder, upon successful examination at the end of the course, to the degree of Bachelor of Science or Bachelor of Arts.

By means of such scholarships, some deserving boy, selected by the donor of the scholarship or by the College authorities or by open competition, will be enabled to make the full commercial or classical course at the Jesuits' College. Course scholarships are sixty dollars per year.

But course scholarships, by their very nature, cease with the graduation of their holders. What is practically needed, and is most desirable, is the foundation of perpetual scholarships, that is, an endowment sufficiently large to yield an annual interest that will cover the yearly tuition fees of one student. These endowed scholarships are estimated at \$1500.

The following are among those who have given scholarships :

Perpetual Scholarship

THE MARINONI FAMILY.

Course Scholarships

MRS. S. B. DENÈGRE,
 MR. JOHN T. GIBBONS,
 MR. PETER F. PESCU, ^D,
 DR. PAUL REISS,
 A FRIEND OF EDUCATION,
 MR. CHARLES A. HARTWELL,
 MESSRS. DIBOLL & OWEN,
 MR. WALTER R. STAUFFER,
 THE H. S. MARING SCHOLARSHIP,
 BY AN ALUMNUS.
 MR. HART D. NEWMAN.

Acknowledgments

The President and Faculty wish to express publicly and in an especial manner, the gratitude with which the College recalls and cherishes the memory of its past and present benefactors. The Messrs. Bernard, Patrick and Hugh McCloskey have, at their own expense, erected the superb College Annex now occupied by the Preparatory Department. The Thomas J. Semmes Memorial Chapel is the Munificent Gift of a noble wife fittingly perpetuating the memory of her illustrious husband in the College he loved so well.

The College also desires to express its gratitude to Mrs. S. B. Denègre, Mr. J. B. Levert, Mr. Nicholas Burke, Mrs. N. Hanton Burke, Mr. Lawrence Fabacher, Mr. Joseph Burguières, Mr. Francis R. Johnson, Mrs. Andrew Johnson, Mr. James Sinnott, Mr. Anthony Vizard and other true friends who generously contributed to the building fund.

The College hopes that these noble examples will arouse in others, blessed with ample fortune, the desire to emulate the above-named donors and to advance the cause of Christian education, by assisting in the construction of the contemplated Science Hall and other buildings forming an essential feature in the original plan.

The President and Faculty express their grateful acknowledgment also to the various departments of the U. S. Government and of the Smithsonian Institute for contributions to the College Library and Museum.

To Georgetown University, Washington, D. C., for a scholarship in the Law or Medical Department.

To Tulane University for two scholarships in the College of Technology.

To Mr. J. Alonzo Woodville for a scholarship in the New Orleans College of Oratory.

To Dr. Paul Reiss, Dr. Charles Landfried, Dr. William Scheppegegrell, Dr. Denègre Martin, Dr. Charles Faget for professional services.

For Contributions to the Scientific Department to Messrs. A. C. Bell, J. Nadau du Treil, F. Mottram, J. Favaloro, Library.

To the G. B. Mars' Orchestra for the musical program of the various college entertainments.

To the donors of Medals given for excellence in the different studies.
